ABOUT THE SEMINAR

Balurghat Mahila Mahavidyalaya, established on 12 August 1970 is the only college meant for imparting Womens' Education in the District of Dakshin Dianjpur. The college is accredited B+ by NAAC (Second cycle) and is known for its quality education. The science faculty of the college offers Under Graduate courses in Botany, Zoology, Food and Nutrition and Chemistry. The departments of science faculty have well equipped laboratories as well as a central instrumentation facility funded by RUSA. The science faculty also has its own research facility and conducts independent research in the field of Agriculture Microbiology and Biofertilizers funded by Department of Biotechnology, Govt. of India. The Internal Quality Assurance Cell (IQAC) of the college is organising this State Level Science Seminar to create awareness among the students regarding the scientific developments and advances in the field of Life Sciences. The larger objective of this seminar is to provide a platform to the teachers, researchers, policy makers, scholars and students of the nearby educational and research institutes within the state to discuss the issues and advances in Life Science Research towards Sustainable Development.
